Greetings:

Following up on my earlier phone conversations with Ms. Carol Litchfield, I hereby submit the attached pdf proposal for grant consideration under **The Society for Industrial Archeology Industrial Heritage Preservation Grants**. I have incorporated the signed cover page as the first page of the proposal. Please let me know if you need it sent again by fax.

Both sponsoring institutions, Bucknell University and the Union County Historical Society, see this project as a rare opportunity to document a significant industry from America's rural past through a unique water powered gristmill that is still commercially operating in Union County. Please let us know if you require any further information in support of this proposal.

Tom
