---

Mr. Durfee,

I called this morning in reference to adding the word "Foundation" to the end of our organization's title for our IHPG proposal. The Patriots Point Naval and Maritime Museum Foundation handles the administrative side of donations/awarded grants and their office is not in the museum, which is aboard the ship. I'm pretty new here and didn't know the administrative side had different contact information. The museum itself is handling all preservation projects, but the Patriots Points Naval and Maritime Museum Foundation receives any donations or grant funding that may come in; basically just a change in address and email on the cover sheet. Ben Newton, the treasurer, has signed off as the sponsoring organization official. I may be looking too deep into this, just wanted to point out the distinction in case there was confusion in the future.

Thank you for the chance to clarify and the opportunity to submit a proposal. Please don't hesitate to contact me if you have any further questions. The proposal is attached with the above changes.

Marcy Wynn
