I am pleased to submit the attached application for grant funding to help with measured drawings of the Vermont Marble Company manufacturing building located in Proctor, VT. As this building shifts to non-profit ownership and continues to house the Vermont Marble Museum, it will be better protected to serve as an important industrial site. Thank you for your consideration! Please contact me if you have any questions.
Sincerely,

Ann Cousins

Experience

Ann Cousins is a Field Service Representative and Special Gifts Officer for the Preservation Trust of Vermont. She has worked for the Preservation Trust since 1997 providing technical assistance, fundraising coaching, and encouragement to community development and historic preservation projects. Prior to working for the Preservation Trust of Vermont, Cousins was the Cultural Heritage Coordinator for the Lake Champlain Basin Program, where she discovered the rich history and underwater world of Lake Champlain. As a result, she and her family became avid scuba divers and today they spend as much of the summers as possible on Lake Champlain.

- 1997-present Preservation Trust of Vermont, Field Service Rep. and Special Gifts Officer
- 1990-present 36CFR61-qualified historic preservation consultant
- 1991-1997 Lake Champlain Basin Program, Cultural Heritage Coordinator
- 1990-1991 Town of Williston, Certified Local Government Coordinator
- 1976-1984 Downtown Business Owner of *Weathervane Art and Framing*
- 1976-1985 Registered Nurse
