To whom it may concern:

Please find attached one original application submitted by Lake States Railway Historical Association, Inc. (LSRHA) to the Society for Industrial Archeology sponsored Industrial Heritage Preservation Grant. This application is requesting \$3,000 to fund the contract of a temporary Data Entry Specialist to enter data from completed Collection Data Sheets filled out as part of the description process for the vast CRI&P Drawing Collection. LSRHA, a not-for-profit organization and 501(c)3 corporation, will start describing and cataloging this collection of Chicago, Rock Island & Pacific Railroad technical drawings in September, 2014 or there about. This project has a total Budget of \$20,236, of which \$12,341 has been funded from other sources with \$1,500 remaining unused.

Please be aware that the earthlink.com website cannot handle more than three attachments and cannot transmit more than 10 megabytes in a single transmission. Therefore, the grant application package will come attached to several e-mail notes.

We at LSRHA look forward to learning of your interests in this project.

Please also be aware that LSRHA received a check for \$2,000 as a similar grant of funding for a different project on August 1, 2013. A semiannual report for this grant will be submitted shortly.

Sincerely,

Byron H. Long, Ph.D. ex gratia Development Coordinator Lake States Railway Historical Association

Volunteer help will contribute an estimated 900 hours of effort in processing this collection. This calculation is based on the assumption of 2 volunteers working off-and-on every week during summer months totaling 50 person-hours per week per person for 10 weeks totaling 500 person-hours and 2 volunteers working for 10 hours per day twice a month for 10 months totaling 400 person-hours.
